Report on Review of Interim Condensed Consolidated Financial Statements

To the Board of Directors of Arçelik Anonim Şirketi;

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Arçelik Anonim Şirketi and its subsidiaries ("the Group") as of June 30, 2026 and the interim condensed consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and the consolidated statement of cash flows for the six-month period then ended, and explanatory notes. Group management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with Turkish Accounting Standard 34, Interim Financial Reporting ("TAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements ("SRE") 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with TAS 34.

[*] On 19 June 2026, a share purchase agreement was signed between Beko B.V. and Whirlpool EMEA Holdings LLC for the acquisition by Beko B.V. of the 25% interest held by Whirlpool EMEA Holdings LLC in the share capital of Beko Europe B.V. for a consideration of TL 3,800,617. Upon completion of the transaction, Beko B.V. became the sole shareholder of Beko Europe B.V.As there was no change in the Group's control over Beko Europe B.V., the transaction was accounted for within equity as a change in the Group's ownership interest in a subsidiary that did not result in a loss of control. Although the amount corresponding to 25% of Beko Europe B.V.'s net assets of TL 11,269,892 as at the transaction date was TL 2,817,473, the consolidated carrying amount of the non-controlling interests as at the transaction date was determined as TL 429,254, since the non-controlling interests had initially been measured at fair value in accordance with TFRS 3. The difference of TL 3,371,363 between this carrying amount and the purchase consideration of TL 3,800,617 was recognized in retained earnings attributable to the owners of the parent.

Approval of consolidated financial statements

The consolidated financial statements as of and for the period ended June 30, 2026 were approved for issue by the Board of Directors on July 29, 2026.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of presentation

Financial reporting standards

The condensed consolidated financial statements of the Group have been prepared in accordance with the Turkish Financial Reporting Standards, ("TFRS") and interpretations as adopted in line with international standards by the Public Oversight Accounting and Auditing Standards Authority of Turkey ("POA") in line with the communiqué numbered II-14.1 "Communiqué on the Principles of Financial Reporting In Capital Markets" ("the Communiqué") announced by the Capital Markets Board of Turkey ("CMB") on June 13, 2013 which is published on Official Gazette numbered 28676. TFRS are updated in harmony with the changes and updates in International Financial and Accounting Standards ("IFRS") by the communiqués announced by the POA.

The condensed interim consolidated financial statements are presented in accordance with "Announcement regarding with TAS Taxonomy" which was published on July 3, 2024, by POA and the format and mandatory information recommended by CMB.

The Group prepared its condensed consolidated interim financial statements for the six months period ended June 30, 2026, in accordance with TAS 34 "Interim Reporting" standard. Interim condensed consolidated financial statements do not include all the information required for the annual financial statements and therefore they should be read in conjunction with the annual consolidated financial statements for the year ended 31 December 2025.

Foreign subsidiaries have prepared their statutory financial statements in accordance with the related local laws and regulations. Condensed consolidated financial statements have been prepared under the historical cost convention except for the derivative instruments and available for sale financial assets presented at fair values.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.1 Basis of presentation (Continued)

Financial reporting in hyperinflationary economy

Pursuant to the decision of the Capital Markets Board of Türkiye (CMB) dated December 28, 2023 and numbered 81/1820, it has been resolved that issuers and capital market institutions subject to financial reporting regulations that apply Turkish Accounting/Financial Reporting Standards (TFRS) shall implement inflation accounting by applying the provisions of TAS 29 "Financial Reporting in Hyperinflationary Economies", starting from their annual financial statements for the periods ending on or after December 31, 2023.

The Group has prepared its consolidated financial statements for the period ended 30 June 2026 by applying TAS 29, based on the relevant Capital Markets Board (CMB) decision, the announcement made by the Public Oversight Accounting and Auditing Standards Authority (POA) on November 23, 2023, and the published 'Implementation Guide on Financial Reporting in Hyperinflationary Economies.

In accordance with the standard, financial statements prepared in the currency of a hyperinflationary economy are presented in terms of the purchasing power of that currency at the reporting date. Comparative financial statements are also restated in terms of the current measurement unit at the end of the reporting period. Accordingly, the Group has presented its consolidated financial statements as of June 30, 2025 and December 31, 2025 in terms of the purchasing power as of June 30, 2026.

The adjustments made in accordance with TAS 29 were performed using the adjustment coefficient calculated based on the Consumer Price Index ("CPI") published by the Turkish Statistical Institute ("TÜİK"). As of June 30, 2026, the indices and adjustment coefficients used in the adjustment of the consolidated financial statements are as follows:

Period End	Index (*)	Conversion Factor	Three-year Inflation Rate
June 30, 2026	129.99	1.00000	206%
December 31, 2025	110.39	1.17758	211%
June 30, 2025	98.40	1.32109	220%

(*) As of 2026, the Turkish Statistical Institute ("TurkStat") has updated the base year to 2025=100. Accordingly, index values previously reported using different reference years and scaling have been revised by TurkStat based on the new base year. For comparability purposes, historical data have also been adjusted by TurkStat to the same base year.

The main elements of the Group's adjustment process for financial reporting in hyperinflationary economies are as follows:

- Current period consolidated financial statements prepared in TRY are expressed in terms of the purchasing power at the balance sheet date, and amounts from previous reporting periods are also adjusted and expressed in terms of the purchasing power at the end of the reporting period.
- Monetary assets and liabilities are not adjusted as they are already expressed in terms of the current purchasing power at the balance sheet date. In cases where the inflation-adjusted values of non-monetary items exceed their recoverable amount or net realizable value, the provisions of IAS 36 "Impairment of Assets" and IAS 2 "Inventories" are applied, respectively.
- Non-monetary assets and liabilities and equity items that are not expressed in terms of the current purchasing power at the balance sheet date have been adjusted using the relevant adjustment coefficients.
- All items in the comprehensive income statement, except for those that have an impact on the comprehensive income statement of non-monetary items on the balance sheet, have been indexed using the coefficients calculated for the periods when the income and expense accounts were first reflected in the financial statements.
- The impact of inflation on the Group's net monetary asset position in the current period is recorded in the net monetary gain/(loss) account in the consolidated income statement (Note 26).

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.1 Basis of presentation (Continued)

New and amended standards and interpretations

The accounting policies adopted in preparation of the consolidated financial statements as of June 30, 2026 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRS interpretations effective as of January 1, 2026 and thereafter. The effects of these standards and interpretations on the Group's financial position and performance have been disclosed in the related paragraphs.

a) The new standards, amendments and interpretations which are effective as of January 1, 2026 are as follows:

- Amendments to TFRS 9 and TFRS 7 – Classification and measurement of financial instruments
- Annual Improvements to TFRSs – Volume 11
- Amendments to TFRS 9 and TFRS 7 - Contracts Referencing Nature-dependent Electricity

The amendments did not have a significant impact on the financial position or performance of the Group.

b) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the condensed consolidated financial statements are as follows. the Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

- Amendments to TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The Group will wait until the final amendment to assess the impacts of the changes.

- TFRS 17 - The new Standard for insurance contracts

The standard is not applicable for the Group.

- TFRS 18 – The new Standard for Presentation and Disclosure in Financial Statements

The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

- TFRS 19 – The new Standard for Subsidiaries without Public Accountability: Disclosures

The standard is not applicable for the Group.

- Amendments to TAS 21 - Translation to a Hyperinflationary Presentation

The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

c) The new amendments that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA)

The following IFRS 20 and amendments to IAS 28 are issued by IASB but not yet adapted/issued by POA. Therefore, they do not constitute part of TFRS. The Company / the Group will make the necessary changes to its consolidated financial statements after the amendments and new Standard are issued and become effective under TFRS.

- IFRS 20 – Standard for Regulatory Assets and Regulatory Liabilities
- Amendments to IAS 28 - Fair Value Option for Investments in Associates and Joint Ventures

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.1 Basis of presentation (Continued)

Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in TRY, which is the functional currency of Arçelik and the presentation currency of the Group.

Financial statements of subsidiaries operating in countries other than Turkey

The Financial statements of subsidiaries operating in countries other than Turkey are compiled by the TFRS promulgated by the POA to reflect the proper presentation and content. Subsidiaries' assets and liabilities are translated into TRY from the foreign exchange rate at the reporting date and income and expenses are translated into TRY at the average foreign exchange rate and indexing has been applied to bring the income and expenses to the current period's purchasing power. Exchange differences arising from the translation of the opening net assets and differences between the average and balance sheet date rates are recognized in the "currency translation difference" under the use of equity.

Consolidation principles

(a) The consolidated financial statements include the accounts of the parent company, Arçelik, and its Subsidiaries and Associates on the basis set out in sections (b) to (f) below. The financial statements of the companies included in the consolidation have been prepared as of the date of the consolidated financial statements and are based on the statutory records with adjustments and reclassifications for the purpose of presentation in conformity TAS/TFRS promulgated by the POA as set out in the communiqué numbered II-14.1, and Group accounting and disclosure policies.

(b) Subsidiaries are the Companies controlled by Arçelik when it is exposed, or has rights, to variable returns from its involvement with the investee and could affect those returns through its power over the investee.

(c) Subsidiaries are consolidated from the date on which the control is transferred to the Group and are no longer consolidated from the date that the control ceases.

The statement of financial position and statements profit or loss of the Subsidiaries are consolidated on a line-by-line basis and the carrying value of the investment held by Arçelik and its Subsidiaries is eliminated against the related shareholders' equity. Intercompany transactions and balances between Arçelik and its Subsidiaries are eliminated on consolidation. The cost of, and the dividends arising from, shares held by Arçelik in its Subsidiaries are eliminated from shareholders' equity and income for the year, respectively.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.1 Basis of presentation (Continued)

Consolidation principles (Continued)

(d) Associates and joint ventures are companies in which the Group has attributable interest of more than 20% and less than 50% of the ordinary share capital held for the long-term and over which a significant influence is exercised. Associates are accounted for using the equity method.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. The Group ceases to account the associate using the equity method if it loses significant influence or the net investment in the associate becomes nil, unless it has entered a liability or a commitment. After the date of the caesura of the significant influence, the investment is carried at fair value.

The table below sets out all associates and joint ventures shows their direct and indirect ownership as of June 30, 2026, and December 31 2025 (%):

	June 30, 2026	December 31, 2025
Arçelik - LG	45.00	45.00
Koç Finansman (*)	47.00	47.00
Ram Dış Ticaret	33.50	33.50
VoltBek	49.00	49.00

(*) A Share Purchase Agreement was signed for the transfer of the entire share capital of Koç Finansman A.Ş., in which the Group holds shares, to Ford Otomotiv Sanayi A.Ş., as announced in the material event disclosure made on the Public Disclosure Platform ("KAP") on March 13, 2026. Following the satisfaction of the closing conditions set out in the Share Purchase Agreement, it was announced in the material event disclosure made on KAP on July 1, 2026 that the transactions relating to the share transfer had been completed (Note 14, Note 33)

(e) Financial assets in which the Group has ownership interests below 20%, or in which a significant influence is not exercised by the Group that have quoted market prices in active markets and/or whose fair values can be reliably measured are classified as financial assets measured at fair value through other comprehensive income in the consolidated financial statements.

(f) The non-controlling share in the net assets and results of Subsidiaries for the year are separately classified as "non-controlling interest" in the consolidated statements of financial position and consolidated statements of profit or loss.

Sensitivity: Internal / Non-Personal Data

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.1 Basis of presentation (Continued)

Going concern

The Group prepared consolidated financial statements in accordance with the going concern assumption.

Offsetting

Financial assets and liabilities are offset and reported in the net amount when there is a legally enforceable right or when there is an intention to settle the assets and liabilities on a net basis or realize the assets and settle the liabilities simultaneously.

Comparatives and restatement of prior periods' financial statements

The consolidated financial statements of the Group include comparative financial information to enable the determination of the trends in the financial position and performance. Comparative figures are reclassified, where necessary, to conform to changes in presentation in the current period consolidated financial statements and the significant changes are explained.

Except for changes pointed below paragraphs, Group has applied consistent accounting policies in the preparation of consolidated financial statements presented the Group does not have any other significant changes in accounting policy and accounting estimates in the current period.

2.2 Restatement and errors in the accounting policies and estimates

Any change in the accounting policies resulting from the first-time adoption of a new standard is made either retrospectively or prospectively in accordance with the transition requirements. Changes without any transition requirement, material changes in accounting policies or material errors are corrected, retrospectively by restating the prior period condensed consolidated financial statements. If changes in accounting estimates are related to only one period, they are recognized in the period when changes are applied; if changes in estimates are related to future periods, they are recognized both in the period where the change is applied and future periods prospectively.

2.3 Summary of Significant Accounting Policies

The condensed consolidated financial statements for the interim period ended June 30, 2026, have been prepared in accordance with TAS 34, Interim Financial Reporting. The significant accounting policies used in the preparation of the condensed consolidated financial statements are consistent with those disclosed in detail in the consolidated financial statements as at December 31, 2025. Consequently, the interim condensed consolidated financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2025.

c. Sale of Arçelik Hitachi Shares

The Group entered into a share purchase agreement with Hitachi Global Life Solutions, Inc. for the sale of shares representing 60% of the share capital of Arçelik Hitachi, which is owned by the Group. Details of the transaction were publicly disclosed by the Group on the Public Disclosure Platform on 21 March 2026.

Completion of the transaction is subject to obtaining the required regulatory approvals, including approvals from the relevant competition authorities in the applicable jurisdictions, and the fulfilment of the other closing conditions stipulated in the share purchase agreement. The transaction is expected to be completed within 12 months following the signing date of the share purchase agreement.

Following the signing of the share purchase agreement and in view of the expectation that the sale transaction will be completed within 12 months from the date of the agreement, the assets and liabilities of Arçelik Hitachi and its subsidiaries were classified as a disposal group held for sale in accordance with TFRS 5 "Non-current Assets Held for Sale and Discontinued Operations".

Accordingly, the assets of Arçelik Hitachi and its subsidiaries have been presented separately in the consolidated statement of financial position under "Disposal Groups Classified as Held for Sale", while the liabilities directly associated with those assets have been presented under "Liabilities Associated with Disposal Groups Classified as Held for Sale", without offsetting.

Assets classified as held for sale that are within the scope of the measurement requirements of TFRS 5 were measured, as at the date of classification, at the lower of their carrying amounts and fair values less costs to sell. Depreciation and amortisation ceased to be charged from the date of classification in respect of depreciable and amortisable non-current assets included in the disposal group classified as held for sale.

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, tax liabilities, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

In Türkiye, the corporate income tax rate is 25% as of 30 June 2026 (31 December 2025: 25%). Corporate income tax is calculated on taxable corporate income, determined by adjusting accounting profit for non-deductible expenses and tax exemptions and incentives in accordance with tax legislation. Pursuant to Law No. 7582 published on 4 June 2026, the corporate income tax rate applicable to income generated from manufacturing activities by companies holding an industrial registration certificate and actively engaged in manufacturing has been reduced from 25% to 12.5%, effective from 1 January 2027. While this amendment has no impact on the current tax expense, it has been reflected in the deferred tax calculations as of 30 June 2026 based on whether the related income is expected to be generated from manufacturing or non-manufacturing activities.

Income tax expense for the six-month period ended June 30 is as follows:

	1 January-30 June 2026	1 January-30 June 2025	1 April-30 June 2026	1 April-30 June 2025

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between their statement of financial position accounts prepared in accordance with TAS/TFRS promulgated by POA Financial Reporting Standards and their statutory financial statements. These temporary differences usually result from the recognition of revenue and expenses in different reporting periods for TAS/TFRS and Tax Laws.

Tax Advantages Obtained Under the Investment Incentive System:

(*) Earnings derived from investments benefiting from an investment incentive certificate are subject to corporate income tax at reduced rates, starting from the fiscal period in which the investment is partially or fully commissioned, and continuing until the maximum investment contribution amount is reached. Within this framework, as of June 30, 2026, the Group recognized deferred tax assets amounting to TRY 11,695,888 (December 31, 2025: TRY 12,573,028) in the consolidated financial statements, representing tax advantages expected to be utilized in the foreseeable future. As a result of the recognition of these deferred tax assets, a deferred tax expense amounting to TRY 877,140 has been recorded in the consolidated statement of profit or loss for the period between January 1 and June 30, 2026.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available. Where it is probable that taxable profits will be generated in future periods, deferred tax assets are recognized for deductible temporary differences, tax loss carryforwards and tax benefits arising from investment incentives with an indefinite life that allow corporate tax to be paid at reduced rates. In this context, the Group recognizes deferred tax assets arising from investment incentives based on long-term plans and assesses the recoverability of such deferred tax assets at each reporting date based on business models that include projections of future taxable profits. The Group expects to recover such deferred tax assets within 10 years from the reporting date.

NOTE 27 - TAX ASSETS AND LIABILITIES (Continued)

Tax Advantages Obtained Under the Investment Incentive System (continued):

In the sensitivity analysis performed as of June 30, 2026, when the inputs of the key macroeconomic and sectoral assumptions that form the business plans are increased/decreased by 10%, there is no change in the projected 10-year recovery periods of deferred tax assets related to investment incentives.

Movements in deferred tax asset / (liabilities) for the period ending June 30 are as follows:

	2026	2025
Balance as of January 1	**28,883,474**	**28,278,143**
Deferred tax income recognized in statement of profit or loss	(2,147,208)	(911,018)

Subsidiaries accumulated and undistributed profits are being used in financing investments and working capital requirements, and the dividend payments are subject to Group management's approval. Complete distribution of these accumulated profits is not anticipated as of balance sheet date, and consequently no resulting deferred tax liability is accrued.

NOTE 28 - EARNINGS PER SHARE

Earnings per share disclosed in the condensed consolidated statements of income are determined by dividing the net income per share by the weighted average number of shares that have been outstanding during the year.

The Companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings. In earnings per share calculation, this bonus share issuance is accepted as shares issued. Hence, weighted average stock share, which is used in the calculation of earnings per share, is acquired by retrospective application of bonus share issue.

Earnings per share are as follows:

	1 January-30 June 2026	1 January-30 June 2025	1 April-30 June 2026	1 April-30 June 2025
Profit for the year attributable to equity holders of the parent	1,493,453	(5,382,933)	3,437,661	(3,086,096)

NOTE 30 - FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

The Group has focused on managing various financial risks, including the effects of changes in debt and capital market prices, foreign exchange rates, and interest rates due to its operations. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Group.

Hedging operations and derivative instruments

Liquidity Risk

The risk of failure in settling financial liabilities is eliminated by managing the condensed consolidated financial position statement and expected cash flows in harmony. In this context, the maturities of the financial liabilities are kept in line with the maturities of assets to eliminate any duration mismatch, to maintain short term liquidity with effective inventory term, trade receivables and trade payables term, net working capital objectives are set, and condensed consolidated statement of financial position ratios are aimed to be kept at particular levels.

In managing its medium- and long-term liquidity position, the Group prepares cash flow forecasts based on financial market conditions and industry dynamics, while aiming to maintain the average maturity of its debt at a certain level through access to diversified sources of financing.

Interest Rate Risk

Changes in interest rates create significant risks over financial results due to the impact on interest sensitive assets and liabilities. These exposures are managed by establishing a fixed-floating balance in the condensed consolidated financial statements and balancing interest rate sensitive assets and maturity with inter balance sheet items and using derivative instruments when considered necessary.

In this context, importance is given to ensuring that not only the maturities but also the repricing periods of receivables and payables are aligned. To be affected as little as possible by interest rate fluctuations, the repricing periods of financial liabilities and receivables are aligned on the one hand, while on the other hand the "fixed/floating interest" and "short-term/long-term" balances within these liabilities are maintained.

Sensitivity: Internal / Non-Personal Data

NOTE 30 - FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (Continued)

Funding risk

The Group manages its funding risk relating to existing and future debt requirements by ensuring ongoing access to a diversified base of high-quality lenders and funding sources.

Credit risk

The Group is exposed to credit risk arising from receivables from credit-financed sales and deposits with banks.

Credit risk of receivables from third parties is managed by securing receivables with collaterals covering receivables at the highest possible proportion, Methods used are as follows:

- Bank guarantees (guarantee letters, letter of credit etc,),
- Credit insurance (Global insurance policies, Eximbank and factoring insurance etc,),
- Mortgages,
- Endorsed cheques and notes.

In credit risk control, for the customers which are not secured with collaterals, the credit quality of the customer is assessed by considering its financial position, experience and other factors. Individual risk limits are set in accordance; utilization of credit limits is regularly monitored.

For banks, the ratings of independent rating institutions are taken into consideration.

Same credit risk management principles are used for the management of financial assets. Investments are made in instruments with highest liquidity and credit note of the company of transaction is taken into consideration.

The Group has applied the simplified approach stated in TFRS 9 for the calculation of expected credit loss provision for trade receivables. This approach allows for expected credit loss provision for all trade receivables. To measure expected credit losses, the Group appropriately classified its trade receivables based on maturity and credit risk characteristics. The expected credit loss ratio for each class of trade receivables, which is grouped using past loan loss experiences and forward-looking macroeconomic indicators, is calculated and the expected credit loss provision has been calculated by multiplying the determined rate and totals of trade receivable.

Description for the measurements as of June 30, 2026, is as follows;

June 30, 2026	Undue	Overdue 0-1 month	Overdue 1-3 months	Overdue more than 3 months	Total
Expected credit rate (%)	0,005	0,06	0,09	2,28

Foreign exchange risk

Since the Group operates in a diverse geographical area, operations are performed using multiple currencies. Therefore, foreign exchange risk is one of the most significant financial risks faced by the Group.

Trade relations between the Company and its subsidiaries are structured within the framework of relevant legislation and managed centrally by subsidiaries' functional currencies. Thus, foreign currency risk borne by the subsidiaries is minimized. It is aimed at setting the ratio of foreign exchange risk position over equity at a predetermined interval.

The main principle of foreign currency risk management is to minimize the impact of foreign exchange fluctuations by maintaining foreign exchange asset position close to zero.

On balance sheets are preferred for the management of foreign currency risk as in other risk items. However, when necessary, derivative instruments are also used for maintaining foreign currency position at a predetermined level.

Foreign currency hedge of net investments in foreign operations

To hedge the foreign exchange risk arising from the translation of its net investments in certain subsidiaries operating in Europe and Asia Pacific, the Group has designated a portion of its Euro-denominated borrowings as hedging instruments. The hedging relationship established through Ruble-denominated contingent liabilities to hedge the Group's net investment in Russia was terminated as of 23 June 2026 (31 December 2025: RUB 11,056,414,000).

The effective portion of exchange differences arising from hedging instruments designated as net investment hedges is recognized in equity under the hedging reserve for net investments in foreign operations. As of 30 June 2026, EUR 597,351,213 of the Group's bank borrowings was designated as a hedging instrument for net investments in foreign subsidiaries (31 December 2025: EUR 615,000,000).

Cash Flow Hedge Accounting

The Group has converted its USD 400,000,000 bond issuance into Euro through a cross-currency swap transaction (EUR 374,360,591). The cross-currency swap is designated as a hedging instrument against the foreign exchange risk arising from highly probable forecast Euro-denominated sales revenues, and cash flow hedge accounting is applied accordingly. As of 30 June 2026, the carrying amount of the debt related to the hedged bond issuance amounted to TL 18,622,040. During the period ended 30 June 2026, the post-tax effect recognized in other comprehensive income under "cash flow hedge gains/(losses)" in relation to this hedge amounted to TL 1,823,469. As of 30 June 2026, no amount was reclassified from equity to profit or loss under the related cash flow hedge relationship.

The Group designates highly probable forecast Euro-denominated sales revenues as the hedged item against the foreign exchange risk associated with its EUR 100 million loan and applies cash flow hedge accounting accordingly. As of 30 June 2026, the carrying amount of the related loan liability amounted to TL 5,309,500. During the period ended 30 June 2026, the post-tax effect recognized in other comprehensive income under "cash flow hedge gains/(losses)" in relation to this hedge amounted to TL 165,438. As of 30 June 2026, no amount was reclassified from equity to profit or loss under the related cash flow hedge relationship.

The Group designates highly probable forecast USD-denominated sales revenues as the hedged item against the foreign exchange risk associated with its USD 33.3 million loan and applies cash flow hedge accounting accordingly. As of 30 June 2026, the carrying amount of the related loan liability amounted to TL 1,551,837. During the period ended 30 June 2026, the post-tax effect recognized in other comprehensive income under "cash flow hedge gains/(losses)" in relation to this hedge amounted to TL 55,871. As of 30 June 2026, an amount of TL 9,379 was reclassified from equity to profit or loss under the related cash flow hedge relationship.

NOTE 31 - FINANCIAL INSTRUMENTS

Fair value hierarchy table

The Group classifies the fair value measurement of each class of financial instruments according to the source, using the three-level hierarchy, as follows:

Level 1: Market price valuation techniques for the determined financial instruments traded in markets (unadjusted)

Level 2: Other valuation techniques include direct or indirect observable inputs; The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates.

Level 3: Valuation techniques do not contain observable market inputs.

Fair value hierarchy table as of June 30, 2026, is as follows:

Financial assets carried out at fair value in statement of financial position	**Level 1**	**Level 2**	**Level 3**
Derivative instruments (Note 7)	-	233,458	-
Financial investments (Note 5)	163,682	-	125,036
